Benchmark

Benchmarking in North America can be done through statistics provided by the Association of University Technology Managers, but their published data only runs to 2009/10.

	2009/10	
	\$value (US)	Rank vs. G5
UBC	\$46,409,549	2
Univ. of Toronto	\$12,551,438	5
Univ. of Alberta	\$22,217,737	4
Univ. de Montreal	\$63,606,204	1
McGill	\$27,799,766	3

Description

The number and value of industry-sponsored research projects recorded in RISE for which UBC received funding in each year.

Person with lead responsibility for this metric: Associate VP Research, VPRI

Data collection will be from: DAssociate Director, ORS

Date: Fiscal year April 1- March 31. Data is normally finalized in June.

Explanation of Results

UBC researchers engaged in 1210 industry-funded research collaborations in 2012/13, generating funding of \$53.6M. Additionally, industry research collaborations are now being supported by NSERC Engage Grants, representing an additional \$2.46M in funding in 2012/13 that is being recorded as a Tri-Council grant.

Recommended Action

It is premature to speculate on the significance of the dip in 2011/12 as it occurred in a year when there was an overall reduction in the external research budget.
