

**RESEARCH EXCELLENCE - % Articles with international collaboration\***

*\*Data compiled as per calendar year (January 1<sup>st</sup> - December 31<sup>st</sup>)*

	UBC - Vancouver + Okanagan		
	2010	2011	2012
% Articles with international collaboration*	44%	44%	43%

*\*All % are rounded to the nearest whole number*

**% of the publications that have an international co-author**

Institutions	2010	2011	2012
UBC	44%	44%	43%
McGill	44%	45%	44%
U of Toronto	40%	41%	41%
U of Alberta	38%	40%	40%
U of Montreal	40%	39%	41%
Oxford	51%	52%	52%
Cambridge	49%	50%	50%
UCL	44%	46%	47%
Stanford	28%	30%	29%
Harvard	34%	34%	35%
MIT	34%	35%	34%

*Note: All % are rounded to the nearest whole number*

**Description (definition)**

- Data obtained using publically available SCImago, from Scopus/Elsevier. (<http://www.scimagojr.com/>)
- SCImago Institutional ranking, representing % of total publications in the Scopus system for UBC including an international co-author, shows the provided numbers for international collaboration.

**Person with lead responsibility for this metric:** Associate VP Research, VPRI

**Data collection will be from:** Director, ORS

**Date:** Data to be reported in April of every year.
