**Description**

We know from our surveys that the greatest form of engagement is through our communications. Alumni want to be kept informed of what is happening at their Alma Mater and we do this through our website and through our extensive email communications. As well, we have also stepped up our offerings on our social media channels. These stats show us how many of our alumni have joined our various active channels that we manage.

Person with lead responsibility for this metric: Alumni Engagement  
Data collection will be from: UBC Links (DAE Database)  
Date: Fiscal year

**Explanation of Results**

There was tremendous growth in website traffic due to increased activity both through email and events. This is the first full year of doing Trek Online, which drives people to the Alumni Affairs website to read the articles. Social media channels continue to see modest growth. Over the next year we expect to see a renewed focus on engagement through social media and we expect our numbers to increase.

**Recommended Action**

Continue to develop communications channels to Alumni.
