3-Year Trend of # Partnerships with CECRs and BL-NCEs

Description

Number of CECR's UBC researchers are engaged with through licensing, project development agreements. Currently UBC researchers are engaged with:

- The Centre for Drug Research and Development
- GreenCentre Canada
- WaveFront
- Centre of Excellence for the Prevention of Organ Failure - PROOF Centre
- Prostate Centre's Translational Research Initiative for Accelerated Discovery and Development (PC-TRIADD)
- Advanced Applied Physics Solutions
- MARS Innovation
- PAN Provincial Vaccine Enterprise (PREVENT)

And have previously had projects with the Centre for Probe Development and Commercialization. Additionally UBC researchers have engaged funding from the Arboranano BL-NCE

Person with lead responsibility for this metric: Associate VP Research, VPRI

Data collection will be from: Director of Operations, UILO

Date: Collected for each fiscal year April - March 31. Data normally available in April.

Explanation of Results

The UBC researchers have partnered with 9 Centres for Excellence in Research and Commercialization (CECRs) in the development of new technologies, and currently have active projects with 7 of these. UBC's most active collaboration is with the Centre for Drug Research and Development (CDRD), located on the UBC Campus. Currently there are 20 drug development collaborations ongoing between UBC researchers and the CDRD, with 25 others completed.
